
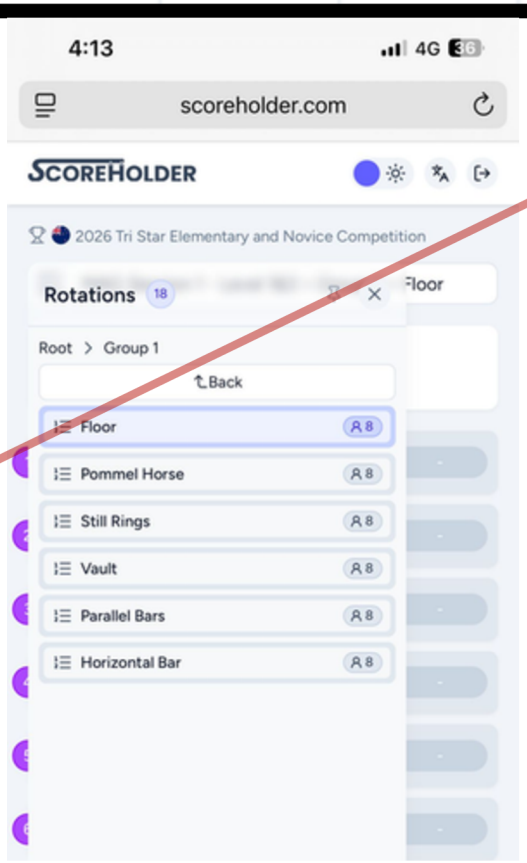
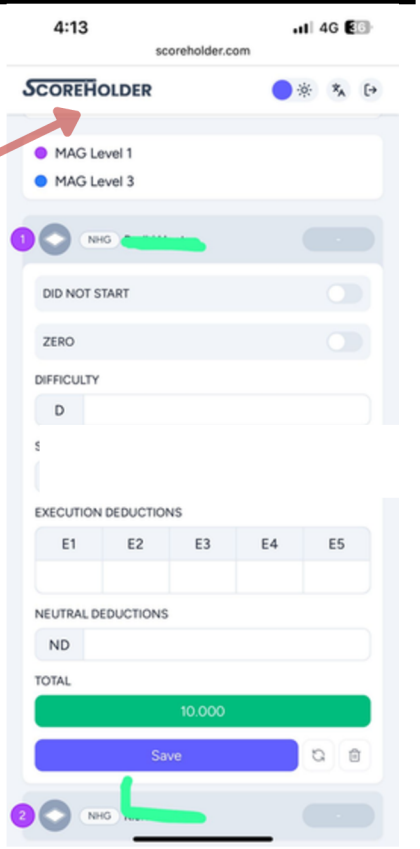
1 Manual Recording Sheet Above:
Begin with the printed recording sheets you will provided with (example above). These sheets are pre-listed with the Apparatus, Group, and Athletes in the correct competition order. Manually Record Judge Scores: As the judges provide the figures, manually enter the following into the corresponding columns on your recording sheet:

No calculations are required; this is strictly for data entry. Do not attempt to calculate or average any scores yourself; simply record the exact numbers provided by the judges.

2. ***System Entry:***
Transfer the handwritten data from your recording sheet into the scoring system. Recording manually first ensures a physical backup before digital entry.
Select the athlete, enter the D score, E scores (E1, E2, E3), and any ND neutral deduction
After clicking Save, record the calculated total back onto the physical sheet for our records.
The screen will then refresh to the next athlete in the order.




If an athlete does not compete, select Did Not Start and click Save
